This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE TO THE FIRST EDITION.

In bringing his pleasant labours to a close, the Editor desires to thank all those who have helped him by promptly sending him the information required, and especially those whose contributions appear in the pages of the work.

It was a great pleasure to receive so many kind and encouraging letters from O.D's in all parts of the world. Some of the writers were known to the Editor, many were not; but all testified to the good feeling existing between the Old Boys, and to their affection for their old School. It is hoped that this record will have the effect of bringing back to the minds of all O.D's pleasant recollections of their school-days, and causing them to spread abroad the knowledge of their old School, so as to increase its prosperity and sphere of usefulness.

Only one letter of an unfriendly nature was received. The Editor hopes to make some comments on this and other amusing incidents of the compilation in some future number of the *Dovorian*.

In cases where no reply to his circulars (sent more than once) was received, the Editor has, as a rule, not recorded addresses which have not been verified by the O.D. addressed or his friends.

In view of bringing out new editions of the work, as occasion should arise, it may be mentioned :

(1) That, if practicable, the next edition will be accompanied by photographs of the buildings in their old and in their present state, and possibly some portraits.

(2) The Editor hopes that all O.D's will notify to him from time to time any change in their address, occupation, or

Digitized by Google

profession, so that the labours of bringing out a new edition may be made as light as possible.

Any suggestions intended to make the book more interesting or useful will be gladly received.

Communications of this nature should be addressed to the Editor, Dover College Register,

The College,
Dover.

Owing to various delays in the printing, the Editor fears that some of the details printed in the Register may be somewhat out of date. Where this is the case he would be glad to be informed as soon as possible; and if any general wish for it is expressed, would at once set about preparing for the issue of another edition in about a year's time.

An explanation of arrangement and abbreviations will be found on the next page. But the commonest abbreviations are for convenience explained at the foot of the pages of the Register.

PREFACE TO THE SECOND EDITION.

In preparing the present edition I have endeavoured to continue the record on the lines so successfully laid down by Mr. Davis in 1894. Unfortunately he is no longer with us to carry on the work which he began, but he left behind him when he went to a school of his own at Ilkley, a supplement, brought out in 1896, which has been a great help in bringing the Register up to date. It has not been found practicable to follow his suggestion of adding to this edition portraits and photographs of the School buildings, and a few pages which were interesting and necessary in the first edition, have been omitted in order to gain space for the new matter which must increase in bulk every term.

There are still a large number of names for which no address can be found, and it has not been possible to make the list much smaller. Advertisements in all the leading papers have led to no result. No doubt there are many O.D's who can furnish a clue to the whereabouts of some of their contemporaries whose names at present stand without an address. If all purchasers would make a point of looking through the list and sending on such information as they could, I should be very grateful, and the next edition of the Register would be all the more complete and interesting for their trouble.

My thanks are due to all those who materially aided me in the work of preparing this edition by sending prompt and full replies to the circular of enquiry, and especially to those who accompanied their replies with encouraging letters. There have been many who have been ready with their help in the actual work of collecting information and correcting proof

sheets. I here thank them all, but it would be unfair not to mention my special debt to the present Editor of the *Dovorian*, J. A. S. Pooley, who is a specialist on O.D. Military Intelligence, and to whose enthusiasm most of the latest military news to be found in this book is due. He has also compiled the Index, as well as revising the athletic records of the School.

A SKETCH OF THE HISTORY OF DOVER COLLEGE.

When Dover College was opened in 1871, the place looked very different from what it does in 1899. The whole of the property belonging to the College at that time consisted of St. Martin's House, the College Hall, and the Gate House. From the north-west corner of the College Hall there ran a high wall to the Gate House, forming an arc of a circle. At the commencement of the first term the Hall was undergoing restoration and could not used. The Gate House had a roof on, but was otherwise in a half-ruinous condition, and was, in appearance, very picturesque. The only inhabitants of it were owls, and it was possible to bring them out at any time of the night or day by jumping on the floor at a certain place. The ground on which the Priory House now stands was outside the boundary, and no houses stood between the College premises and the railway. What is now the Chapel was a picturesque old building, divided up by wooden partitions so as to form a stable, a cow-house, and a scullery for the farm-house which stood on part of the ground now occupied by the School House. The farm-house was partly an old timbered house, and partly of brick. The whole place was extremely picturesque, and had been still more so in former years. The ground between the Hall and the farm-house was used as a potato garden, and between the potato patch and the farm-house there was a broad road, in continuation of the road which runs up from Effingham Crescent. The trees which are now in front of the School House were standing inside the garden belonging to the farm. The gravel playground to the south of the Hall existed then as it does now.

Amid such surroundings, the College began its career on September 12th, 1871. The number of boys who appeared on that day was fifteen; there were, however, three more entered, and before the end of the term there were twenty-one in

Digitized by Google

attendance. Of these twenty-one, fifteen were day boys, and six were boarders.

The preparation room at St. Martin's House, as it was then arranged, was the only school room for the first term. The staff consisted of the Headmaster, with the occasional help of M. Chambert, a Frenchman. This was not a very brilliant beginning, yet the first term was in many ways a very pleasant one, and left pleasant memories to all who were then in the College. The weather was exceedingly fine, and boarders and day boys all appeared every half-holiday to play cricket or football.

Just as cricket was ending and football beginning, the quiet school-life was interrupted by an interesting ceremony, for it was decided that there should be a public opening of the College. The Hall was then finished, and perhaps no better room could be imagined for such a ceremony. If we were happy in having such a room, we were no less happy in having the late Earl Granville for our President, who was always peculiarly successful in presiding at such ceremonies. A procession was formed at the Town Hall, and marched through the gateway to the College. The principal feature of the proceedings was a speech by Earl Granville, which attracted considerable attention at the time. When the ceremony was over the company returned to lunch at the Town Hall, where there were many more speeches, and many expressions of goodwill towards the College. The day was bright and sunny, and, altogether, the opening of Dover College was an imposing ceremony, successfully carried out. So, after beginning very quietly, the College all at once woke up to fame. The next day a full report of the opening appeared in the daily papers, and the *Morning Post* went so far as to honour the young institution with a leading article. The event was annually commemorated by observing October 4th as a holiday.

After Christmas there was a considerable increase in the number of boys, and a Mathematical Master was also added to the staff of teachers. During this term a field was rented for cricket and football near Elms Vale Farm. It was held by the College for about two years, and would have been very useful if it had been nearer the College.

After Easter, the number of boys mounted up to a little over fifty. At this time a series of cricket matches were played with the Preparatory School, which is now at Castle Mount. Mr. Chignell was then Headmaster, and the school was conducted at West Mount. Masters played on both sides, and the fortune of the matches generally turned upon the length of time Mr. Chignell kept up his wicket, as the little boys played well, but could not make much of a score. These matches took place in what is now the lower level of the Cricket Field, which was at that time rented by Mr. Chignell. As one looks back, it seems that the days then were all sunny, the players endued with a double portion of good humour, and the games more full of interest than games could have been where so little was at stake.

Any picture of life at Dover College during these early days would be wholly incomplete if it did not include some mention of Mrs. Bell. Perhaps there never was anyone who took such delight in the society of boys as she did, so long as she enjoyed even tolerable health. At that time she planned her whole life so as to be with them as much as possible. She took charge of all the boys' clothes during those early years, and did most of the work which is commonly assigned to a matron, but she was so rapid in her work, that she could always keep free the hours that the boys were out of school. She might in years have been their elder sister. No elder sister could have been more interested in brothers than she was in the boys of Dover College. The elder boys were her friends and admirers, and some of them spent a large portion of their pocket money in buying for her flowers or other little presents. The younger boys were in their way no less devoted to her, and one little boy was taken away from the College because he showed a marked preference for Mrs. Bell and the College as compared with his mother and his home. And she did not win their affections by indulgence; on the contrary, no one was more severe on idleness and breaches of discipline. She frequently sat with the boys when preparing their lessons, if Mr. Bell were otherwise engaged; and no master ever enforced better order.

In their games she took the most lively interest, sometimes keeping the score at cricket, and never being absent from a football match. Even on the most stormy day of winter she

Digitized by Google

would take up her position at some place where she could see the game, and gathering round her the greatcoat of one of the biggest of the players, and attended by one or two boys who were as enthusiastic as herself, she would watch every point of the game from first to last. In time of sickness, too, she could be one of the kindest and firmest of nurses, and an attack of measles which broke out within the first two years proved rather a benefit than otherwise, as the boys gave such favourable accounts of the nursing and kindness which they received, that it gave parents increased confidence in the management of the School House. Young and beautiful, and possessed of marvellous vivacity, and full of sympathy for others, she gave up her whole life and thought to the boys, and received in return their devoted affection. Yet even then she had times of great suffering and depression, which were known to one only beside herself.

At the end of the first year the prizes were distributed by H. R. H. the Duke of Connaught, who was at that time quartered with his regiment in Dover. The reports of the Examiners were very favourable, considering that it was a new school, and His Royal Highness congratulated all connected with the College on the successful beginning which had been made. He ended his speech by requesting for the boys an extra week's holiday, which was granted with pleasure.

At the beginning of the second year, Mr. C. E. Sparke joined the College. He was then a good all-round cricketer, but especially useful as a bowler. He also played football well. At that time, and for many years afterwards, all the masters spent their half-holidays at cricket and football. This had much to do with the success of the school. The masters and boys knew one another thoroughly, and this intimate knowledge only increased their mutual respect. At one time the masters could make up an eleven which could beat the boys* and at football they were perhaps better still. It may be news to the younger generation that Rugby Union and Association Rules were then unknown. The first young master who came from Cambridge brought with him what were called the Cambridge University Rules, and these were adopted by the College for a

time. When the first matches with the King's School, Canterbury, were played, the agreement was that the play should be in accordance with their rules on their ground, and in accordance with our rules on our ground. The result was profound dissatisfaction on both sides. After two years we took over the present cricket field from Mr. Chignell, which we rented, as he had done, from a butcher. The lower part of the field was then much as it is now, but the upper part was very uneven, and fenced off for the use of fat bullocks. We had no professional, no ground man, and so had to prepare our pitch before we could play on it. Yet I am not sure that we were not in those days quite as contented as the present generation.

It may be asked what kind of fellows the early boys at Dover College were. Well, there are a good many alive to answer for themselves, and they are well able to do so. They were very much the same sort of boy as we have now, only they were younger. In any new school it is generally found that classics are a weak point at the start, and Dover College was no exception. There were a few who played cricket wonderfully well for their age, and they were all devoted to football, as Dover College boys always have been, perhaps because their Headmaster set them the example. In intellectual power, perhaps the twenty that first entered would compare not unfavourably with any twenty which entered in any subsequent term. Some of them have done very good work already, and may be expected to do still better in the future. They all, without exception, at once attached themselves to the place and became, without hint or guidance of any kind, enthusiastically loyal and patriotic. It is also very wonderful, when one thinks of it, how well they get on together. I suppose that there were now and then jealousies and heartburning, but if there were any such, they were kept well under, for they never appeared on the surface; from all of which it will be understood that at its beginning Dover College was very much the same in tone and feeling as it has continued to be throughout its career.

It may seem to some that too much has been said of these early days, but it must not be forgotten that those early days had much to do with making Dover College what it is. When it was started, no one expected that it would be more than a

Digitized by Google

local day school; many openly prophesied that it would be a failure. Its early success was entirely due to its staff and to its pupils. The pupils did well, and expressed great affection for their school, and so an ever-increasing number of pupils kept flowing to the school. The Governing Body, for the first fifteen years of its existence, confined themselves almost entirely to providing additional accommodation as it was required, and left the management of the school in the hands of the Headmaster. Undoubtedly the Council did its part of the work well, and helped forward the College by providing good buildings, but the motive power which pushed the College ahead was in the staff, as it is in every school which prospers.

It remains now to indicate the various stages of development as shortly as may be. The growth of the College was very rapid, considering that it had no endowments of any kind, and within about three years the Headmaster's house was filled with boarders, and he was urging the Council to extend the buildings of the College. It was not, however, before 1876 that anything was really done. In the meantime, the Headmaster had rented No. 2, Christ Church Villas, which was soon filled with boarders, and after this was accomplished, Mr. Sparke started his career as a House Master, by renting No. 1, Christ Church Villas. In 1877, the new buildings were completed, which had been begun in 1876. These buildings consisted of Priory House and the Class Room attached to the Hall.

The boundary line of the College Property was at that time extended to the road which then ran in front of the present School House, and to the other road which still runs in front of the Priory House. Though so much had been done in a short time, the Headmaster had a desire to do more, and he remembers that about the time when buildings were completed, he one day offered to a Committee, who were inspecting them, that he would contribute £100 towards the restoration of the Ancient Guest House for a College Chapel, if they could obtain it and carry out the restoration. The Headmaster took possession of Priory House after Easter, 1877, and found it very convenient and a pleasant house enough in fine weather, but it is no exaggeration to say that there was not a square yard in its walls which was proof against a shower of rain. In

Digitized by Google

the course of time this was remedied, and it is now as good a house as any one would wish to live in. Mr. Sparke then moved into St. Martin's House, and the two houses which had been rented were given up. The number of pupils in June, 1877, was one hundred and twenty, of whom fifty-four were boarders.

The growth of the College during this period was very rapid, and in June, 1879, the number of boarders had increased to ninety-four. The Headmaster's house and Mr. Sparke's house were both full, and another boarding-house had been commenced, of which a short account must be given.

The House Master was the late Mr. C. E. Steedman, M.A. at that time the Principal Mathematical Master, a man of whom all who knew him have the most pleasant recollections. He was a successful teacher, and fond of games, but the great charm about him was his magnificent bass voice, and his great love of music. By that time we had come to have services in the College Hall, on Sunday evenings, instead of going to St. Mary's, and Mrs. Bell and Mr. Steedman, as organist and choirmaster, took the chief part in preparing the choir for the musical portion of the services. In addition to this, Mr. Steedman took a leading part in the concerts and other musical entertainments which were given. The house he occupied is now Christ Church Vicarage, and traces of its former occupation by the College may still be seen in the bricked-up doorway leading from the College Close into the Vicarage Garden. His career as a House Master was, unhappily, a very short one. In August, 1879, he was married, and within a year he died at the College.

In the meantime, active steps had been taken to increase the accommodation for boarders once more. The Council had acquired the ancient Guest House, with the quaint farm house attached to it, in 1879. It was found that the road which ran in front of it had never been made over to the public, so that the Council on acquiring the land on both sides, closed up the road and gave the grounds the appearance which they now have. Before commencing the new house they determined to restore the Guest House for a chapel. A considerable sum, not less than £600, was raised by subscription to carry out the

Digitized by Google

restoration, and the extra cost was met by the Council out of the funds of the College. This was finished some time before Mr. Steedman's death in July, 1880. The School House was also completed in the year 1880, and the Headmaster began to occupy it in January, 1881. At the same time, Mr. Sparke left St. Martin's House and entered Priory House.

There was now ample accommodation for the boarders in the two houses, and the boarders who had been in Mr. Steedman's house were transferred to the School House.

St. Martin's House stood empty for a little while, but, as the other houses were soon practically full, it was enlarged, and opened by the Rev. F. B. Walters (who is now Principal of King William's College, Isle of Man) in September, 1881.

St. Martin's House, as restored and enlarged, rapidly filled, and within three years, plans were entertained for building a new house on the hill behind the chapel, but they were not carried out.

Meanwhile, improvements had been carried out in other directions. The upper part of the Cricket Field had been levelled and brought into its present form in 1881, under the direction of Mr. Chignell. It was a work of great labour and expense, but when it was done, the College had at last a Cricket Field worthy of it. When this work was completed, the Headmaster set about raising money to build a cricket pavilion. A subscription list was opened, and a fair number of subscriptions came in from parents, but there was little response to the appeal from the proprietors. In the end, however, chiefly owing to the efforts of the late Mr. Steriker Finnis, a member of the Council, and the Headmaster, the present pavilion was erected. The debt which was left on the building was cleared off by the Council shortly afterwards, when they took over the subscriptions to games.

In the same year, another great improvement was carried out at the College in the restoration of the gateway, by Sir Richard Dickeson. The people of Dover, who were desirous of showing ther appreciation of Sir Richard's Dickeson's liberality and public spirit, subscribed a considerable sum of money which was to be spent in raising some lasting memorial of their gratitude. As it was left to him to choose the form of the

Digitized by Google

memorial, he decided to restore the ancient Gate House of the College, that it might serve as a Library. When he had carried out the restoration, at a cost considerably beyond the amount contributed, he handed it over to Earl Granville, the President of the College, in October, 1881. It has proved to be one of the most useful, as it is acknowledged to be the most beautiful, of the College buildings.

It has been stated that the College Chapel was restored in 1880. It must be understood, however, that at that time only the necessary work was done to render it available for use as a College Chapel. Since that time many additions have been made to the building and the furniture, the effect of which has been to make it one of the most beautiful and interesting of College Chapels. The east end was at first a dead wall, and the College owes to Dr. Astley, Chairman of the Council of the College, the beautiful apse, which he added at his own cost in 1886. To the same kind benefactor the College owes the charming organ, which he placed in the Chapel in 1882. Mr. Sparke was the donor of the eagle, and inscriptions indicate the donors of the numerous windows which have been given from time to time. The last addition was the clock which was placed in the turret at the south-west angle of the Chapel, as a memorial of Mrs. Bell, in the year 1892.

The last addition made to the buildings of the College in time of its first Headmaster was the Gymnasium, which was built in 1886.

It would be interesting to many to have here some record of the development of the College as a place of education, but it would take more space than can be spared, and it has been thought better on the whole to omit any such attempts for the present.

The growth of the College was, for the first sixteen years, very rapid, and was the subject of constant congratulation to all concerned.

It is full of promise for the future that the Old Dovorians are so devoted to their school. The publication of the Record, in which this will appear, is an indication of the strength of the ties which bind the past to the present. The time will soon come when the second generation will be inhabiting the

Digitized by Google

beautiful buildings where their fathers passed their school days. May they keep up the good traditions of the past, and improve upon their fathers', if they can, by feeling an even greater affection for a school which grows more and more in prosperity and fame!

W. B.

Mr. Bell's long and successful reign came to an end in July, 1892, and he was succeeded by the Rev. W. C. Compton, formerly House Master at Uppingham.

Since the appointment of his successor, a new venture has been started, which augurs well for the future of the College. In January, 1893, the Junior School, to act as a preparatory to the College, was opened at West Mount, the beautiful house formerly occupied by Mr. Chignell and Mr. Jollye, under the charge of Mr. A. H. Atkinson, who came to us from Dulwich. Starting with fourteen boys, it now numbers fifty, of whom about twenty are boarders. The enthusiasm shown for football, under the guidance of the Assistant Masters, shows that in that respect at any rate, the establishment at West Mount is "a chip of the old block." The Junior School forms an integral part of the College, the boys coming to Chapel on Sundays, and taking their places when required in the choir; and their names will be found in this Record, entered in alphabetical order, according to their term of entry, among the rest, but distinguished by the letter [J.].

An addition was made to the Chapel in 1893 in the shape of a pulpit, kindly given by our constant benefactor, Dr. Astley.

Among the changes introduced since Mr. Compton's rule began, it may interest Old Dovorians to know that the afternoon devoted to mathematics—and possibly slumbers—is a thing of the past; the mathematical and classical work, each in single hours, falling to the masters specially qualified in each branch; and the hours are so changed that in the Winter time, instead of being indoors all the afternoon we get till half-past four for out-of-door recreation, and do our work from 4.30 till 6.30.

In the Summer Term, the old arrangement, with slight

Digitized by Google

modifications, has been retained, so that the later part of the afternoon can be devoted, as of old, to cricket.

Those who wish to witness the College Sports also would find a great change. They are now held at the usual time for such festivities, in the Lent Term, and on the Cricket Field instead of in the Close. Thus we can get a lap of nearly a quarter of a mile, and the other events, *e.g.*, hurdles and 100 yards are more conveniently provided for. Neither can the visitors have any cause to regret the change. Instead of crowding up the library steps to get their tea, they are accommodated on the field, and as the weather has, on most occasions, been quite as brilliant as we used to get always in the end of May, we may presume that the change is as acceptable to the powers that control the skies as to the boys and visitors.

A detailed account of the history of the Priory buildings in old times, and a sketch of the present state of the College was published in *St. James's Budget* of February 23rd, 1894.

A. H. D.

Since the publication of the last edition of this Register we have to thank Dr. Astley once more for yet another gift. In 1897 he provided the School with seven new Class Rooms in place of the old Class Rooms adjoining the Hall. The roof of the old building was removed and the walls were carried up several feet higher, so as to make room for two storeys. The top storey contains three rooms, the lower three more and a museum. The rooms are well lighted and ventilated, and decorated on the walls with pictures which were provided by subscription among the masters and friends of the College. Dr. Astley's munificence could not have taken a more useful form or one better calculated to help on the work of the School.

In the previous year, through the liberality of the present Headmaster, who is an enthusiast in the game, two Eton Fives Courts were built abutting on the wall between the Priory House and the Library. These Courts are roofed, and provide a very welcome means of amusement on wet days when other games are interrupted.

EXPLANATION OF ARRANGEMENT AND ABBREVIATIONS.

The names are arranged in alphabetical order in the term of entrance into the College. To find the record of any member of the College look out the name in the Index (at the end of the volume), where the number of the page on which the name occurs will be found. Names of Masters are printed in large type.

‡ After name—School Prefect.

The date after the name is the date of birth.

Next comes the letter indicating house, in square brackets:

[D.]—Day Boy. [Sch.]—School House. [Sp.]—Sparke's House. [St.]—Steedman's House. [W.]—Walters' from 1881 to 1886, Williams' from 1890 (*b*) to 1898 (*c*). [L.]—Littlewood's (the same house as Walters') 1886 (*c*) to 1890 (*a*).

At the beginning of Mr. Compton's term of office in 1892 (*c*) the names were changed so as to be permanent:

From that date [S.] School House.

[P.]—(Priory House) takes place of Sparke's.

[M.]—(St. Martin's) takes place of Williams'.

[J.]—Junior School.

Next come distinctions gained in the school, exhibitions, etc., and athletic distinctions, *e.g.*, XI.—Cricket XI.; XV., Football XV.; the years being given therewith. The only prizes noticed are the two principal ones, for Classics and Mathematics, *i.e.*, the Bodkin Prize and the Mayor's Medal.

Next comes date of leaving, where it was easily obtainable (but the class lists used to be so arranged that finding this out for certain was in many cases so laborious that it had to be given up), (*a*), (*b*), (*c*), first, second, and third term respectively.

Digitized by Google

After 1892 it may be taken for granted that where a name is mentioned without any notice of date of leaving, or life since leaving, it is the name of a boy still in the School, March, 1899.

Then are recorded distinctions, etc., gained since leaving, the usual abbreviations being employed, *e.g.*, R.M.C.—Royal Military College, Sandhurst; R.M.A.—Royal Military Academy, Woolwich, etc.

Permanent address, *i.e.*, the address from which letters will always be forwarded if the addressee is not actually living there.

NOTES ON DOVER COLLEGE FOOTBALL.

It will be seen by reference to the List of Football Matches that at the College, Football has been more uniformly successful than Cricket. The especially notable seasons are 1885-86 and 1888-89. The first of these teams, under the Captaincy of W. Bell, won all its matches, only two points being scored by its opponents during the season. The second invincible team, in 1888, under E. Crothers, and including H. S. Bush, A. N. D. Fagan, and C. E. Wilson, had the same number of points (two) scored against them, but two matches were drawn. Of these, one was against a very strong team of Old Dovorians, the other against Dulwich College Vacation Team, which meant their School Team assisted by some distinguished old boys, among them W. R. M. Leake, of Cambridge University XV., and R. Easterbrook. The points scored by this team were 162 in 11 matches.

The most successful teams of recent years were those of 1896 and 1897, under the Captaincy of G. A. Vickery; the former only lost one match, and none of its opponents scored against it on the home ground, the latter won eight of the ten matches played.

With regard to the schools with which we contend, particulars are given elsewhere. Let it suffice here to note that whereas we have been nearly always successful against King's School, we have only lately drawn level with Sutton Valence.

Two new fixtures with Merchant Taylor's School and Epsom College have recently been added, which promise to provide close contests each year.

In 1895, the custom of including Masters in the Football and Cricket Teams which represent the School against Clubs was discontinued.

CENTURIES SCORED BY MEMBERS OF THE XI.

1887. H. S. Bush, 122, against the East Surrey Regiment.
1888. H. S. Bush, 132, against King's School, Canterbury.
,, 157, against Royal Artillery (Dover).
1889. H. S. Bush, 134, (not out) against "The Buffs."
,, 117, against Dover C.C.
1890. H. B. Foster, 105, against the Old Dovorians.
1898. M. S. Rogers, 152, (not out) against St. Augustine's College.

HOCKEY TEAMS.

In 1897 Hockey was adopted as the School game for the Lent Term. A Cup was presented by *The Dovorian* for competition between the Houses (all ages); and this year (1899) House Matches have been instituted for under 16 teams also.

INTER-SCHOOL ATHLETIC SPORTS.

In 1897 a proposal emanated from Dover College to institute an Inter-School Athletic Sports Meeting, at which representatives from King's School, Sutton Valence School, and Dover College should compete, and which should be held annually at Canterbury, Sutton, and Dover, in rotation. The proposal was taken up by the other Schools, and the first meeting took place in March, 1897, on the College Cricket Field.

Two representatives from each School compete for all other events, and three for the Mile Race. The programme contains seven events, the same as those in the Inter-University Sports, except that Hammer Throwing and Weight Putting are excluded, and the Three Miles replaced by a Half Mile Race. The championship is decided by the number of first places gained, but in the event of a tie, second places are counted, and, if necessary, the third place in the Mile.

So far (February, 1899), Dover College has secured the championship each year.

THE OLD DOVORIAN CLUB.

By an O.D.

1887.

On the occasion of the annual Past and Present Football Match at Dover, on December 10th, 1887, there was a meeting of Old Boys to discuss the desirability of forming an Old Dovorian Club, with its headquarters in London, for the purpose of football, cricket, and social gatherings.

Richard Norris was the proposer of this scheme, which was received with general approbation.

A Committee was thereupon elected, which consisted of the following:—Rev. Wm. Bell, President; C. E. Sparke, Esq., E. T. Littlewood, Esq., Vice-Presidents; T. D. Bell, R. M. Bird, M. W. Dixon, B. Hunt, R. W. Hunt, F. H. Maugham, E. A. Plunkett, C. B. Pike, C. G. Wellesley, and E. B. Woodman, Committee; with R. Norris, Hon. Secretary and Treasurer.

Previous to this date, however, it should be stated that it had been a general custom to play an annual football and cricket match between the Old Boys and the Present, at Dover.

The earliest date of an Old Boys' visit to the College was for a football match which took place on February 8th, 1879. During the summer of that year the first Cricket Team also visited the College.

Since 1879 annual visits have been paid for football matches (except season 1881-82) and cricket (except 1881), up to the time of the formation of the Old Dovorian Club.

The meeting, besides electing a Committee for the management of the Club, decided to have a dinner at an early date in London, to which all O.D.'s were to be invited.

The Committee met for the first time on December 16th, and sent notices out to those whose addresses were known, acquainting them with the formation of the Club, asking for their support, and inviting them to the dinner.

The subscription was fixed at 10s. and 5s. for playing and non-playing members respectively.

1888.

Mr. Bell presided at the first dinner, which was held at the First Avenue Hotel, on January 12th, 1888.

It may be of interest if the names of those present be added :—C. E. Sparke, Esq., E. T. Littlewood, Esq., Rev. F. B. Walters, A. E. Gibson, Esq., C. R. Haines, Esq., G. L. Colbourne, Esq., L. Happé, Esq., Rev. H. Garrett, F. Bampfield, C. Beadle, T. D. Bell, R. M. Bird, F. Bower, F.R. Brown, M. W. Dixon, W. Emanuel, P. Evans, M. Greig, J. C. H. Greig, E. Hunt, B. Hunt, R. W. Hunt, W. Jacob, G. W. Keeling, C. Mason, H. N. Maugham, R. Norris, F. B. Norris, M. O'Brien, G. Osborn, R. Phipps, A. H. Raikes, W. Strachan, A. M. Talbot, H. A. Wellesley, and C. G. Wellesley.

The dinner was a decided success, and it was hoped by those present that it would become an annual event.

The Old Dovorian Football Club, although not as yet properly organised, played a match at Dulwich, on January 28th, v. Kent Rovers, a team of some standing. The O.D.'s won this, their first match, by 1 goal and 1 try to *nil*.

Unfortunately, no minutes were kept of the earlier meetings of the Committee, but cricket matches were played by the Club that year :—v. Dover College and v. Dover Club.

R. Norris, who had been one of the founders, and had piloted the Club as Hon. Secretary and Treasurer, left England before the summer was over, to the regret of all O.D.'s.

Christopher B. Pike was elected by the Committee in his stead.

The first minutes of a Committee meeting are entered on October 8th, 1888. The Committee issued the rules of the Club and the match list which had been arranged. T. D. Bell was elected Captain of the Football Team.

The Old Dovorian Club won 4 (Middlesex Wanderers, Dover Garrison, Surrey Wanderers, Clapham Rovers), lost 5 (Kent Wanderers, Blackheath A., Kensington A., Royal School of Mines, Sydenham), and drew 3 (Dover College, Clapham Rovers, Marylebone) in the season 1888-89.

On December 16th, a general meeting was held at Dover, with C. O. Maugham in the chair. The report of the Club's progress was read, and the balance sheet approved. The follow-

Digitized by Google

ing officers were elected for the ensuing season, 1889-90:—H. A. Wellesley, Captain; C. B. Pike, Hon. Secretary and Treasurer; T. D. Bell, R. M. Bird, S. B. Hulke, C. O. Maugham, C. G. Wellesley, Committee. It was further decided that the Club be affiliated to the Rugby Union.

Since that date the annual Football and Cricket Matches with the School have been played each year. The Old Dovorian Football Club continued until the end of 1894, when, owing to the increasing difficulty of getting a representative team together, it was decided to abandon it.

In 1895, the custom of holding two informal "Mufti," dinners, one in June, and one in September, of each year, in addition to the annual dinner in January, was started. In the same year it was resolved to adopt dark blue, red and old gold as the Club colours. It was found, however, that these were practically identical with the colours of the Old Edwardians, and in 1898, light blue, dark blue, and red were adopted instead.

In 1893, an Old Dovorian Charity Fund was started, with the object of helping to support a cot in the Dover Hospital, which had been purchased with the St. Martin's Fund, *i.e.*, the Sunday offertories in the College Chapel, and which is called the "Dovorian" Cot; it was found, however, that the St. Martin's Fund was able to support it without assistance, and the money collected among Old Dovorians was handed over to the Vicar of Dover for the Boys' Brigade. In 1895, this Old Dovorian fund was discontinued.

In the same year, with a view to drawing more members to the Old Dovorian Club, A. W. Bartlett was elected Hon. Secretary for London, in addition to the existing Hon. Secretary and Treasurer at Dover. It was also arranged that Old Dovorian news and Club notices should appear in the O.D. column of the School Magazine, and that it should be sent gratis to all members of the Club.

The subscription for life membership was fixed at £3 3s.

In 1898 the first Old Dovorian cricket week was held. Matches were played under the captaincy of W. F. Hackman, with Dover Club, Sutton Valence, The Seaforth Highlanders, and Dover College, in all of which the Old Dovorians were victorious. It is intended to have a cricket week every year in

future, and to arrange a short football tour also. These will be managed under the auspices of the Dover Wanderers, or the athletic section of the Old Dovorian Club, a full account of which will be found elsewhere.

The Club is now in a flourishing state, with a list of 150 members, but it is hoped that the number may rapidly increase as years go on.

All communications relating to the Club should be sent to
A. W. Bartlett (Hon. Secretary),

DOVER WANDERERS.

In the summer of 1898, owing mainly to the energy of W. F. Hackman and F. G. C. Hartopp, an Old Dovorian cricket week was arranged, which proved so successful that all concerned were anxious to make it an annual fixture. With this object the Dover Wanderers were instituted as an athletic side of the Old Dovorian Club. It was hoped that the Wanderers might serve as a means of strengthening the Old Dovorian Club by drawing together the most prominent athletes, and making it always possible to put strong Old Dovorian cricket and football teams into the field, and arrange tours, while election to them would be a distinction to which boys still at school might look forward. A large number of the most prominent members of the School would in this way be secured as members of the Old Dovorian Club.

Membership is obtained through election by the committee, from Old Dovorians who are members of the Old Dovorian Club. The original members, of whom a list is appended,

were elected by a committee appointed for that purpose by the general meeting of the Old Dovorian Club, in June, 1898.

The Wanderers' colours are black, white and purple.
